Bristol Bay Script - Tomiak brief_ACP_pm.docx

Palmer,

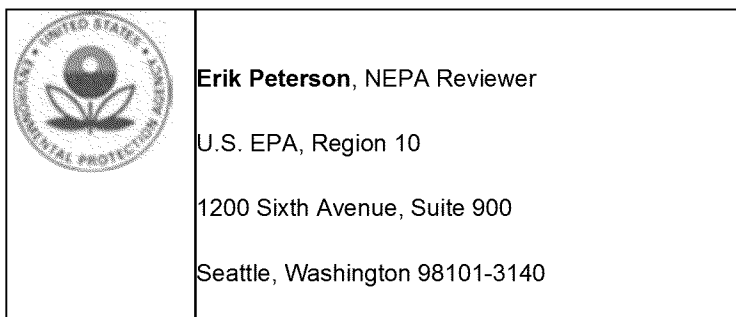

I've attached the ppt. and script.

Also, please let me know if this hyperlink works – directly to sub-folder in Region 10 share drive G.

Also, let me know if this hyperlink to the Region10 Bristol Bay share drive folder works. This, in theory, should be a direct access from anywhere in EPA directly to Region 10's G drive. If this works for you it will mean that you and Brittany and others at HQ can have direct access to the records on Region 10's share drive.

Can someone send me the final slides and script for this briefing? Just want to have them for our records here.

Subject: PP and script for OFA briefing

Hi David -

Attached is the PowerPoint and script for the OFA briefing tomorrow.

There were some changes to both the PP and script given the recent happenings related to the withdrawal and permit application. The track changes version of the script was getting messy, so the clean version is attached.

I am not sure if you will have a chance to look through this before the briefing. If you have edits, let us know and we can make those changes. Otherwise we will go with the version that is attached to this email.
